Annual Production Sale

Friday, February 19, 2016 | 11 am

Stockmen's Livestock Market
1200 E. HWY 50 | Yankton, SD

Selling

51

F1 to Purebred
12-15 Months-of-Age

Simmental Bulls

Dear cattle producers.

Welcome to our annual production sale. 2016 marks our 38th year in the Simmental cattle business. Once again, our cows have produced a very powerful set of bulls. Year after year these girls do a tremendous job for us. The bulls selling this year represent one of the deepest, thickest, most eye-appealing lineups to date that have been produced on our farm. We are confident that anyone of these bulls will add muscle, style and more pounds to your next calf crop.

We want to offer a special thanks to our repeat customers and welcome new ones. Without your continued support this would not be possible. Also thanks to our neighbors, family and friends who help us out around the farm when ever we seem to be in need of an extra hand.

The bulls are on a vaccination program set up by Dr. Greg Verheul of Sioux Nation Vet Clinic, Viborg SD. The bulls are semen tested and checked for soundness. If these bulls would not work on our farm, they would definitely not be sold to a fellow cattleman.

Again this year we will be offering **\$50** to you, the buyer, if you take your bull home the day of the sale from the sale barn. If you are unable to take your bull day of the sale, we will keep them until April 1, 2016 at no charge and then deliver. After April 1st we will take care of them for \$2.50 a day. We will give the best care to the bulls we take home but will not be responsible for sickness, injury or death.

We look forward to visiting with you on sale day February 19th 2016 at Stockmen's Livestock, Yankton SD! We will be more than happy to answer any questions you have prior to the sale or stop by anytime and visit and view the bulls.

Kevin and Simon

HEALY SIMMENTAL *Annual Production Sale*

Friday, February 19, 2016 | 11 am

Stockmen's Livestock Market | 1200 E HWY 50 | Yankton, SD

Selling 51 Bulls
F1 to Purebred | 12-15 Months-of-Age

FRIDAY, FEB. 19, 2016, 11:00 am
Stockmen's Livestock Market, Yankton, SD

Storm Date: February 22, 11:00 a.m.

Sale Day Phone: (605) 665-9641

Auctioneer: Greg Ryken (605) 661-1451

Come early before the sale for a complimentary lunch.

Announcements: Announcements made day of sale take precedence over printed material. All persons who attend this sale do so at their own risk and the sale management or owners assume no liabilities for any accidents that may occur.

Bulls Fully Guaranteed

Retaining Shares: We will be retaining 1/3 semen revenue sharing interest in every bull on the sale. Full possession and salvage value sell on all bulls unless otherwise noted or announced sale day.

Online Bidding: This year we have online bidding with LMA Auctions. To take advantage of the online bidding contact Stockmen's to get set up to bid. www.Stockmen'slivestock.com or (605) 665-9641

Contact: Kevin & Simon Healy

CARCASS EPD'S

Below, you will find definitions that explain how to read the values of CW (carcass weight), YG (yield grade) and MS (marbling score).

Carcass Weight – The hot carcass weight of a bull's progeny. Expected progeny performance is reported in pounds and adjusted to a slaughter age of 475 days. The EPD predicts the difference in average carcass weight of a bull's progeny compared to progeny of all other bulls evaluated. A positive value indicates heavier than average carcass weights, while a negative value (-) indicates lighter than average carcass weights.

Yield Grade – As with all EPD's, YG EPD is expressed as a deviation. To use it, one must keep in mind that it is in yield grade units. Therefore, lower is better. For example, a bull with a -.33 YG EPD would be expected to sire offspring that are a 1/3 of a yield grade better (lower) than a zero bull. If zero bulls sired an average yield of 3.0 in a particular environment and management system, offspring of a -.33 bull would be expected to have an average yield grade of 2.67 (1/3 of a yield grade better/lower).

Marbling Score – A subjective evaluation of the amount and distribution of intramuscular fat. Degree of marbling is evaluated in the ribeye muscle between the 12th and 13th rib and is a major factor in determining USDA quality grade. Marbling scores range for 1 (devoid) to 10 (abundant). Expected progeny performance is reported in tenths of marbling score and adjusted to a slaughter age of 475 days. The EPD value predicts the difference in average marbling score of a bull's progeny compared to progeny of all other evaluated bulls. A positive value indicates higher than average marbling scores while a negative value (-) indicates lower than average marbling scores.
