HEALY SIMMENTAL

Dear cattle producers,

WELCOME to our annual production sale. 2024 marks our 46th year in the Simmental breed. On behalf of our family, we would like to thank you for your interest in our proven and reliable cattle program.

Every year when I sit down to write this letter, it is always nice to reflect back on the past year. I won't go as far as to say that the drought is over but we are in a lot better shape than we were a year ago. Mother nature seems to always be keeping us on our toes and making us better cattlemen everyday.

As you might have seen, this years offering is a little different. For the past 3 years we have been building a Charolais herd. We have been fortunate enough to be able to start at the top of the Char genetic ladder and offer the best of the best to our customers. Also we have decided to let go of some of our keeper heifers. These heifers are fancy in their kind and demand a second look when ever you pass by their pen. Either for show stock or production these heifers will excel on either front.

All of these bulls were fed to develop into breeding machines and not to get fat. We are not a feedlot and we do not feed our bulls like they are in one. Hard fed fat bulls will only be problematic with structure and reproduction. We believe that when you buy a bull from us, they have to be problem free, add more pounds to your next calf crop, along with more heifers in your keeper pen.

Seeing all of the repeat mommas making their catalog appearance again just makes me smile. Year in and

year out these high-quality bull making girls just seem to click for us. All of these bulls were bred here and were raised here on the farm.

We would like to offer a special thank you to our repeat customers and welcome our new buyers. Without your continued support and belief in our program, this would not be possible. Also, we would like to thank our family, friends and neighbors who help us out around the farm whenever we seem to be in need of an extra hand.

The bulls are semen tested and checked for soundness. With our growing family and little helpers running around, we cannot, and will not, put up with any high headed or ground pawing cattle. If these bulls would not work on our farm, they definitely would not be sold to a fellow cattleman. We realize that your success depends on our breeding program and we want to have quality bulls from the first lot to the last bull in the sale ring.

This year we will be again offering \$200 to you, the buyer, if you take your bull or heifer home the day of the sale from Stockmen's. If you are unable to take your bull the day of the sale, we will keep them until April 1, 2024 at no charge and then deliver; free delivery within 250 miles. After April 1st we will take care of them for \$2.50 a day. We will give the best care to the bulls we take home but will not be responsible for sickness, injury or death. We strongly recommend the buyer insuring their newly acquired bull or heifer if we take them home.

We look forward to visiting with you on sale day February 2, 2024 at Stockmen's Livestock, Yankton SD. We will be more than happy to answer any questions you have prior to the sale or stop by the farm anytime to visit and view the bulls and heifers.

Simon and Kevin

EXPLANATION OF HOW TO UTILIZE API & TI INDEXES

First, determine which index to use; if you're keeping replacements use API, if not, TI. Then, just as with EPDs, zero in on the unit difference between bulls. (As described to the left, index units are in dollars per cow exposed.) The difference can be used to determine how much a bull is worth compared to another. Or put another way, how much you can pay for one bull compared to another. For example, when buying an all purpose-type sire, you can quickly figure a bull scoring +100 for API is worth an extra \$6,000 over a \$50 bull if both are exposed to 30 cows over 4 years (\$50 diff. x 30 hd. x 4 yr. = \$6,000). A percentile-ranking chart is required to determine where a bull's index value ranks him relative to other bulls in the breed. For more information, visit www.simmental.org

Definitions of Terms
